Amazing Portfolio Software for Cryptocurrency & Blockchain! Ive been looking for a program like this for Mac for 5 years! This is a wonderful tool to keep up with 'all types' of investments; but in the last few updates they have really added amazing support for 'Crypto/Blochchain Technology'.. From there, you have access to performance data, stock charts, and analytical tools to track and plan your investments.. Finviz (Financial Visualization) provides an unrivaled screener and cool heat maps on the market.. Free Stock Market Analysis Software Free data for many international exchanges Stock data for over 20 counries Free End of Day data Free Intraday data.. 4 Optionistics com - If you're in the no-software camp and are looking for a great resource look no further than Optionistics.. Don't fret though we know you're a chart fanatic (visual learners unite) here's more visual candy to get the point across.. The great innovators over at Vestly Software have created a masterpiece in non-software based (browser based) charting with Trixy, but they've also got another tool well worth the mention called StockFetcher.. We provided a full review of TrixyCharts on BigTrends com earlier this year, you can check out the full review here.. Equity curve management is covered as a part of our 50 course coaching program, but you can get a jumpstart by using this awesome tool today.. Price Headley uses TrixyCharts for the Weekly Market Outlook Video found in BigTV.
